The Trustees' Report

Introduction

This report relates to the operation of the Students' Union Superannuation Scheme ("the Scheme") during the year ended 30 June 2018. The Investment Report on pages 11 to 14 forms part of this report.

The Scheme was a contracted-out salary related pension arrangement and provides its members with retirement benefits. This type of arrangement is also known as a defined benefits arrangement. Up until 30 September 2003 the Scheme provided a pension of 1/60th of final pensionable earnings for each year of pensionable service. From 1 October 2003 the Scheme changed to a career average structure where members built up a slice of additional pension based on their earnings during the year. On 1 October 2011 the Scheme closed to future accrual. Normal contributions have ceased and only deficit reduction contributions continue to be paid.

Before 1 October 2011 members were able to make additional voluntary contributions (AVCs) to secure additional benefits. The Scheme also covered members for death benefits before this date.

Full details of the Scheme's benefits can be found in the member's explanatory booklet (see "Contact for further information" on page 6).

Management of the Scheme

The names of the Trustees of the Scheme who served during the year and those serving at the date of approval of this report are as follows:

Name	Nominated / appointed by	Year of appointment / resignation
Michael Geoffrey Barnes	Member	1982 (retired 2018)
Peter David Shilton Godwin	Employer	1995 (re-appointed 2017)
Richard Hugh Orme Boyes	Member	2007 (re-appointed 2015)
Ross Trustees Services Limited	Independent	2014
David Malcolm	Employer	2014
Susan Cannon	Employer	2015 (resigned 2018)
Nick Gash	Member	2018
John Schless	Employer	2018 (resigned 2018)

The Scheme Rules contain provisions for the appointment and removal of the Trustees. The Scheme requires between two and seven Trustees together with a corporate Trustee. Three Trustees must be elected from the constituent employers of the Scheme and two must be elected from the individual membership of the Scheme. The Trustees serve for a term of six years. This arrangement has been approved by a ballot of the members in accordance with the Pensions Act 1995 and operates with the agreement of the National Union of Students as the principal employer named in the Trust Deed. There is currently a vacant employer nominated trustee position.

The Trustees are responsible for the administration and investment policy of the Scheme. The Trustees held four full meetings during the year under review. Each Trustee is entitled to receive at least ten days' notice of meetings, although in practice dates are normally fixed well in advance.

The Scheme Rules provide that decisions of the Trustees may be made by a majority of the Trustees present at any meeting and the Chairman has a casting vote.

The Trustees have delegated the day-to-day management and operation of the Scheme's affairs to professional organisations.

Changes to Scheme Rules

There have been no changes to Scheme Rules during the year under review.

The Principal Employer

The Principal Employer is the National Union of Students of the United Kingdom.

Scheme advisers

The Trustees retain a number of professional advisers in connection with the operation of the Scheme. The advisers currently appointed are as follows:

Scheme Actuary Paul Hamilton FIA

Advising Actuaries Barnett Waddingham LLP

Independent Auditor Grant Thornton UK LLP

Investment Managers Standard Life Investments

Henderson Global Investors

Legal and General Investment Management

Ruffer LLP

Baring Asset Management

Insight Investment Management (Global Limited)

Partners Group (Guernsey) Limited

(from November 2017)

Custodians Northern Trust

Legal Advisers Osborne Clarke LLP

Squire Patton Boggs UK LLP

Administrator of the Scheme benefits Barnett Waddingham LLP

Bankers Royal Bank of Scotland (to November 2017)

Lloyds TSB

Secretary to the Trustees Ross Trustees Services Limited

Changes in and other matters relating to Scheme advisers

There have been no changes to Scheme advisers and other matters during the year under review.

Scheme Audit

The financial statements on pages 19 to 30 have been prepared and audited in accordance with regulations made under sections 41(1) and (6) of the Pensions Act 1995.

Financial development of the Scheme

During the year the value of the net assets increased by £3,689,847 to £117,890,856 as at 30 June 2018. The increase comprised net withdrawals from dealings with members of £314,985 together with an increase from the net return on investments of £4,004,832.

Pension increases for pre 31 December 1993 pensionable service

A legal issue has arisen on the pension increases to be applied by the Trustees to benefits accrued prior to 31 December 1993. The Scheme was established on 1 October 1981 and initially provided pension increases of 7% fixed on excess pension and statutory increases on GMP (i.e. nil on pre 6 April 1988 GMP and CPI capped at 3% for post 6 April 1988 GMP).

A decision was made in 1988 by the then Trustees to reduce the level of increases to pensions in payment to 3% fixed on both excess pension and GMP with effect from 1 October 1988 for new joiners to the Scheme and back-dated to 1 October 1981 for members in pensionable service on 1 October 1988. However, no deed or written instrument, which was signed by the NUS as principal employer and the then Trustees, has been located to evidence this decision despite extensive searches to locate it. The decision to make these changes therefore resulted in a defective amendment.

A formal amendment to the Scheme Rules was made on 31 December 1993 to reduce the level of increases to pensions in payment and this is valid and has prospective effect.

The Trustees have taken legal advice from Leading Counsel who has confirmed that, in the absence of any other formal amending document or other evidence, the reduction in the level of pension increases takes effect from 31 December 1993 rather than 1 October 1988 (for new joiners) or 1 October 1981 (for existing members). Leading Counsel has advised that neither rectification of the Scheme Rules nor any other legal remedies are available to address this defective amendment.

In light of the advice that the change to pension increases did not take effect until 31 December 1993, the Scheme Actuary has estimated on a projected basis that the additional funding liabilities arising from this issue are up to £48.0 million. There are 657 members affected by this issue, as well as annuitants whose benefits have been secured with an insurance company and up to 52 members (mainly dependants) where the Trustees do not currently have service dates to assess whether this issue affects them.

This estimated additional funding liability is calculated on the Scheme's latest technical provisions basis updated for market conditions as at 1 September 2018 and can be divided as follows:

	1 October 1981 to 30 September 1988	1 October 1988 to 31 December 1993
Additional actuarial funding liability in relation to future payments	£12.2 million	£33.1 million
Back-payments of underpaid pension	£0.7 million	£1.7 million
Interest on back-payments	£0.1 milion	£0.2 million
Total	£13.0 million	£35.0 million

The Trustees have made a decision with the agreement of the NUS to honour pension increases of 7% fixed for existing members as at 1 October 1988 for periods of pensionable service from 1 October 1981 to 30 September 1988 as the power of amendment at the material time protected affected members' accrued rights and such amendment should never have been back-dated. Honouring this pension increase results in a decrease in the net asset statement, and the financial statements have been amended to include an underpayment of £0.70 million plus estimated interest on back-payments of £0.1 million. In addition to this, there is an additional actuarial funding liability of £12.2 million in relation to future pension payments and this will be incorporated in the 2019 Actuarial Valuation.

Those same members who were in pensionable service on 1 October 1988 were sent an announcement informing them of the reduction in pension increases to 3% from that date. Furthermore, new joiners from 1 October 1988 received an explanatory booklet informing them that the applicable increase to pensions in payment is 3% fixed. The defective amendment means that, subject as below, there is a possible additional funding liability of £35.0 million in respect of those members for their pensionable service from 1 October 1988 (or the date of joining if later) to 31 December 1993.

The Trustees have consulted with the NUS (as principal employer of SUSS) and the other participating employers in SUSS as to how to deal with periods of pensionable service from 1 October 1988 to 31 December 1993. Following legal advice in respect of the available options, it is likely that the parties will seek affected members' informed consent to amend the Scheme Rules retrospectively as if the formal amendment had been made on 1 October 1988. This would be posited on the basis that the affected members, via the announcement or the explanatory booklet as applicable, had an expectation that the rate of increase to pensions in payment would be 3%. If implemented, this exercise will be conducted between 1 January 2019 and 31 May 2019. For this reason, the Trustees have not recognised any potential liability for underpaid pensions including interest for the period from 1 October 1988 to 31 December 1993 in the net asset statement at the current time.

The Trustees and the NUS have protected their position in relation to any potential negligence claim arising against the professional adviser to the Scheme at the material time (Friends Life and associated companies) by entering into a standstill agreement with them. The Trustees and the NUS in conjunction with their respective legal advisers continue to consider the merits of any claim against Friends Life and associated companies.

Tax status of Scheme

The Scheme is a registered pension scheme under Chapter 2 of Part 4 of the Finance Act 2004 and, to the Trustees' knowledge, there is no reason why the Scheme's registered status should be prejudiced or withdrawn.

Scheme membership

	Number as at start of year	Changes in year	Number as at end of year
Preserved pensioners	1,552		
adjustment		6	
new		5	
transferred out		(16)	
retired (trivial commutation)		(3)	
retired		(51)	
died		(2)	<u> </u>
			1,491
Pensioners and dependants	899		
new pensioners		51	
commuted pension		(1)	
died		(5)	_
	-		944
Grand total members	2,451		2,435

The member numbers shown above reflect the number of member records held by the Scheme.

Transfer values

All cash equivalents (transfer values) paid during the year were calculated and verified in the manner required by the Pensions Act 1993 and subsequent amendments. No discretionary benefits are included in the calculation of transfer values.

A cash equivalent is the amount which a Scheme member is entitled under social security legislation to have applied as a transfer payment to another permitted pension arrangement or a buy-out policy.

Pension increases

During the year pensions have been increased in accordance with the Scheme Rules with no discretionary benefits provided.

Data Protection Act 2018 and General Data Protection Regulations

On 25 May 2018 the Data Protection Act 1998 was replaced by the General Data Protection Regulations (GDPR) and the Data Protection Act 2018. The GDPR and the 2018 Act introduced some significant changes, including new contractual obligations, enhanced reporting obligations and tougher enforcement and/ or sanctions for non-compliance.

Under the new regulations, pension scheme trustees continue to be classed as data controllers, with legal responsibility for compliance falling to them. Scheme Actuaries are also classed as data controllers (jointly with the trustees) in accordance with guidance issued by the Actuarial Profession. Barnett Waddingham LLP act as a data processer as the administrators of the Scheme.

The Trustees have worked with their advisers to receive relevant training, and continue to do so to ensure continued compliance with data protection legislation.

Codes of Practice

The Trustees are aware of and adhere to the Codes of Practice issued by The Pensions Regulator ("TPR"). The objectives of these codes are to protect members' benefits, reduce the risk of calls on the Pension Protection Fund ("PPF") and to promote good administration.

www.barnett-waddingham.co.uk

The Pensions Regulator: Record Keeping

The Pensions Regulator issues guidance on all aspects of pension scheme data record keeping to all those responsible for the data (the trustees) and those who administer pension schemes. The guidance covers both common data and also conditional data (the data that is used to calculate benefits and is therefore scheme specific). The guidance sets out good practice in helping trustees to assess risks associated with record keeping. Improved data means that trustees and employers will be able to make a more precise assessment of their financial liabilities. Schemes are expected to keep their data under regular review and set targets for the improvement in the standard of data recorded. More information can be found at:

http://www.thepensionsregulator.gov.uk/quidance/guidance-record-keeping.aspx

Contact for further information

If, as a Scheme member, you wish to obtain further information about the Scheme, including copies of the Scheme documentation, your own pension position or who to contact in the event of a problem or complaint, please write to, or telephone:

The Students' Union Team, Barnett Waddingham LLP, St James's House, St James's Square, Cheltenham, GL50 3PR

Or telephone 0333 11 11 222

Alternatively you may contact the Scheme administrators online at: https://logon.bwebstream.com/shared/contact

Statement of Trustees' Responsibilities

The financial statements, which are prepared in accordance with applicable law and United Kingdom Accounting Standards, including Financial Reporting Standard 102 'The Financial Reporting Standard applicable in the UK and Republic of Ireland' (United Kingdom Generally Accepted Accounting Practice), are the responsibility of the trustees. Pension scheme regulations require, and the trustees are responsible for ensuring, that those financial statements:

-) show a true and fair view of the financial transactions of the scheme during the scheme year and of the amount and disposition at the end of the scheme year of its assets and liabilities, other than liabilities to pay pensions and benefits after the end of the scheme year; and
- contain the information specified in Regulations 3 and 3A of the Occupational Pension Schemes (Requirement to obtain Audited Accounts and a Statement from the Auditor) Regulations 1996, including making a statement whether the financial statements have been prepared in accordance with the relevant financial reporting framework applicable to occupational pension schemes.

In discharging the above responsibilities, the trustees are responsible for selecting suitable accounting policies, to be applied consistently, making any estimates and judgments on a prudent and reasonable basis, and for the preparation of the financial statements on a going concern basis unless it is inappropriate to presume that the scheme will not be wound up.

The trustees are also responsible for making available certain other information about the scheme in the form of an annual report.

The trustees also have a general responsibility for ensuring that adequate accounting records are kept and for taking such steps as are reasonably open to them to safeguard the assets of the scheme and to prevent and detect fraud and other irregularities, including the maintenance of an appropriate system of internal control.

The trustees are responsible under pensions legislation for preparing, maintaining and from time to time revising a schedule of contributions showing the rates of contributions payable towards the scheme by or on behalf of the employer and the active members of the scheme and the dates on or before which such contributions are to be paid. The trustees are also responsible for keeping records in respect of contributions received in respect of any active member of the scheme and for adopting risk-based processes to monitor whether contributions are made to the scheme by the employer in accordance with the schedule of contributions. Where breaches of the schedule occur, the trustees are required by the Pensions Acts 1995 and 2004 to consider making reports to The Pensions Regulator and the members.

Report on Actuarial Liabilities

Under Section 222 of the Pensions Act 2004, the Scheme is subject to the Statutory Funding Objective, which is to have sufficient and appropriate assets to cover its Technical Provisions. The Technical Provisions represent the present value of the benefits members are entitled to at the valuation date. This is assessed using the assumptions agreed between the Trustees and the employer and set out in the Statement of Funding Principles, which is available to Scheme members on request.

The most recent full actuarial valuation of the Scheme was carried out as at 30 June 2016. This showed that on that date:

The value of the Technical Provisions was: £221.0 million
The value of the assets was: £101.3 million

Therefore the Scheme had a funding deficit of £119.7 million corresponding to a funding level of 46%.

The method and significant actuarial assumptions used to determine the technical provisions are as follows (all assumptions adopted are set out in the Appendix to the Statement of Funding Principles):

Method

The actuarial method to be used in the calculation of the Technical Provisions is the Projected Unit Method.

Actuarial assumptions - The key assumptions used are:

Inflation

By looking at the cost of investing in Government bonds with payments linked to inflation compared to the cost of investing in Government bonds not linked to inflation, it is possible to arrive at a figure for the average market view of future price inflation. This will then be compared to the latest Treasury targets for inflation in the UK, when deriving the assumption to use.

The assumed rate of pension increases is set taking into account the inflation assumption and also any limit on the rate of increase.

Discount rate

The discount rate will normally be determined by the Trustees taking into account professional advice in relation to market indicators available at the valuation date, the long-term strategic asset allocation, the liability profile of the Scheme, and the perceived strength of the employer covenant. However, if the Trustees have material concerns over the strength of the employer covenant the discount rate may need to be determined looking solely at the yield available on gilts and other low risk asset classes.

The return on Government bonds will be taken as a suitable market index yield.

As a proportion of the Scheme's funds are invested in assets such as equities which would be expected to outperform Government bonds over the long term, an allowance will be made for this in the discount rate. The allowance will be determined by the Trustees based on information provided by their professional advisers.

Mortality

The rates of mortality assumed will reflect information published by the Continuous Mortality Investigation deemed most relevant to the membership of the Scheme, with allowance for expected future improvements in longevity.

This assumption may be adjusted on the advice of the Scheme Actuary or in the light of evidence relating to the actual mortality experience of the Scheme, the industry in which the members work, or the distribution of pension payment amounts.

Report on Actuarial Liabilities (Cont)

Retirement

Members will be assumed to retire at the earliest age at which they can take their benefit without an actuarial reduction applying.

Member options

If the Trustee considers it to be appropriate, allowance may be made for member options such as commuting pension for cash at retirement or taking early retirement.

Dependant details

Assumptions regarding the proportion of members with a dependant at death and the age difference between males and females will be set taking into account advice from the Scheme Actuary and the experience of the Scheme.

The financial statements on pages 19 to 30 do not take into account liabilities which fall due after the year end. As part of the triennial valuation, the Scheme Actuary considers the funding position of the Scheme and the level of contributions payable.

Approval of Trustees' Report (including Investment Report)

Further disclosures required by legislation are provide	ded in the Investment Report.
This report and the accompanying Investment Repo	rt were approved by the Trustees on
Date:	
Signed on behalf of the Trustees:	
Trustee	 Trustee

The Investment Report

Investment managers

The Scheme's Trust Deed and Rules permit the Trustees to delegate the task of investment management to outside experts. Standard Life Investments, Henderson Global Investors, Legal and General Investment Management, Ruffer LLP, Barings Asset Management, Partners Group and Insight Investment Management are professional external investment managers and have taken full responsibility for investing the Scheme's assets. The Trustees set the investment strategy for the Scheme after taking advice from the Scheme's investment adviser. The Trustees have put in place a mandate with their investment managers which implements this strategy. The investment managers are remunerated by fees based on a percentage of funds under management, and these fees are met by the Scheme. The Scheme's investment with Partners Group is subject to a performance-related fee There are no performance-related fee arrangements who charge a percentage of the difference between the NAV per unit and a specified 'high water mark'.

When choosing investments, the Trustees and the fund managers (to the extent delegated) are required to have regard to the criteria for investment set out in the Occupational Pension Schemes (Investment) Regulations 2005 (regulation 4). Regulation 2 of the Occupational Pension Schemes (Investment) Regulations 2005 requires that the managers' duties also include:

- Taking into account social, environmental or ethical considerations in the selection, retention and realisation of investments.
- Voting and corporate governance in relation to the Scheme's assets.

Departures from investment principles

There were no significant departures from the stated principles during the year under review. Small deviations from the benchmark allocation are to be expected as a result of fluctuations in asset prices.

Investment strategy

Strategy at 30 June 2018

The investment objective of the Scheme is to maintain a portfolio of suitable assets of appropriate liquidity which will generate investment returns to meet, together with future contributions, the benefits of the Scheme payable under the Trust Deed and Rules as they fall due.

The Trustees set the investment strategy for the Scheme taking into account considerations such as the strength of the employer covenant, the long term liabilities of the Scheme and the funding agreed with the Employer. The investment strategy is set out in the Scheme's Statement of Investment Principles (SIP), which was updated in November 2017 to reflect the Scheme's investment in Partners Group.

The current strategy is to hold:

- 40% in investments that move broadly in line with the value of the long-term liabilities of the Scheme. Part of this investment is in LDI and comprises of UK government bonds (gilts), gilt repurchase agreements, interest rate swaps and cash instruments. This part of the portfolio also incorporates holdings in a Multi-Asset Credit Fund and an Absolute Return Bond Fund. The purpose of these assets is to hedge against the impact of interest rate movement on long term liabilities.
- 60% in return seeking investments comprising UK and overseas equities, UK property, Absolute Return Funds, Diversified Growth Funds and alternatives.

The Investment Report (Cont)

In November 2017, £6m was invested in Partners Group, comprising of £4m which was disinvested from L&G Equities, and a £2m lump sum employer contribution. This resulted in a change in allocation within the growth portfolio. Equity allocation decreased from 23% to 18% and subsequently 5% is now invested in alternatives.

In accordance with the Scheme's Guidelines with Insight, Insight increased the level of hedging via transfers from the Bonds Plus 400 Fund to the Insight LDI Funds. Over the 12 month period to 31/6/2018, the level of hedging was increased from 21% to 32%.

Performance

The Scheme's portfolio returned 3.5% over 12 months to 30 June 2018. The table below sets out the investment returns of the Scheme's asset over 1 and 3 year periods to 30 June 2018:

	1 Year (% p.a.)		ır (% p.a.) 3 Years	
	Fund	Benchmark	Fund	Benchmark
L&G Equities	8.5	8.5	11.4	11.4
Standard Life UK Property	7.4	9.7	5.8	8.2
Ruffer Absolute Return	-0.4	0.4	1.4	0.4
Barings Dynamic Asset Allocation Fund	2.7	4.5	3.8	4.5
Henderson Multi Asset Credit Fund*	2.6	5.5	n/a	n/a
Insight Bonds Plus 400*	-3.5	4.4	n/a	n/a
Insight LDI*	5.2	7.6	n/a	n/a
Partners Fund**	4.2	4.8	n/a	n/a
Total	3.5	n/a	6.8	n/a

^{*}the Scheme has not been invested in these funds for a period of 3 years.

Economic and market conditions over the year to 30 June 2018

Economic environment

The end of 2017 was heavily influenced by President Trump's promised tax and spending reforms which boosted US economic growth expectations and helped support the rally in US markets throughout 2017 and into 2018. On 22 December, the tax reforms were signed into law, leading some US companies to revise up their earnings forecasts for the coming year and providing a further boost to US markets.

However, stable growth in markets came to an abrupt end in late January 2018. The S&P 500 fell over 5% in the first full week of February, having already fallen nearly 4% the previous week. It appeared that markets reacted to the possibility of increased wage and price inflation in the US, potentially leading to a faster than expected path of interest rate rises. Comments made by outgoing Federal Reserve Chair, Janet Yellen, that "it is a source of some concern that asset valuations are so high" also played a part in stoking investor uncertainty. The end of the stability associated with markets in 2017 can be illustrated by the "VIX", a measure of market volatility, which increased from an all-time record low in November of 9.1 to 37.3 in February, its highest level since 2015

Concerns about the pace of monetary tightening were soon joined by fears of a global trade war. On 8 March 2018, Donald Trump introduced the first of his long-promised tariffs on imports into the US, penalties of 25% and 10% imposed respectively on imports of steel and aluminium.

www.barnett-waddingham.co.uk

^{**}performance since the Scheme invested in the Fund on 27 November 2017.

The Investment Report (Cont)

Over the second quarter of 2018 the U.S. announced several rounds of further tariffs, largely directed against China. These efforts were matched by equally sized retaliatory measures from the countries affected, leading the President to threaten counter-retaliatory tariffs. Taking into account only the tariffs threatened by the Trump administration by 30 June 2018, more than \$800 billion of trade would be affected.

A combination of these factors put downward pressure on markets over the first half of 2018. Emerging markets such as China suffered most, as they faced the biggest impact from both the imposition of tariffs and higher U.S. interest rates. Japanese, European and Developed Asian stock markets also produced negative returns over the six month period to 30 June 2018.

In the UK, the year was dominated by the Brexit negotiations. Theresa May triggered Article 50 on 29 March 2017, beginning the two year process of the UK leaving the EU and marking the start of negotiations. On 19 March 2018, the two parties agreed a 21 month transition period following the 2019 leaving date. Partially as a result of progress on Brexit talks and the agreement of this extension, sterling strengthened against all major currencies during the second half of 2017 and first quarter of 2018. However, this pattern reversed in the second quarter as weak growth restrained the ability of the Bank of England to raise interest rates and political stability deteriorated.

Political uncertainty continued to plague Europe over the year. German and Austrian elections passed without much incident as traditional parties triumphed, despite gains for populist parties. However the Italian elections of March 2018 saw the 5 Star Movement gain 32% of the vote, to become comfortably the largest single party in only its second general election. 5 Star eventually agreed a coalition with the other big beneficiary from the elections, Liga. Both parties have strong Eurosceptic currents and as a result Italian bond yields spiked, suffering their biggest one day jump since 1992, the yields of other peripheral Eurozone countries also rose sharply. During the second quarter of 2018 yields fell back but remained elevated compared to before the election.

By contrast, political developments in Asia saw existing leaders strengthen their positions. Japan's Prime Minister, Shinzō Abe, called a general election for 22 October 2017, which he won with a landslide majority, and the Chinese Communist Party announced the scrapping of the two term presidential limit, paving the way for Xi Jinping to continue as President indefinitely.

The 12 months to 30 June 2018 saw the US and UK tighten their central bank monetary policies and the ECB start to slow down its asset purchase programme.

The European Central Bank (ECB) kept its main lending rate at 0.0% throughout the period and although it extended the length of its quantitative easing (QE) programme, it also announced that the programme would end in December 2018. This was preceded by reductions in the rate of purchases, from €60bn per month in 2017, to €30bn per month until September 2018 and €15bn per month for the remainder of the year.

On 2 November 2017, the Bank of England (BoE) raised rates for the first time since the Global Financial Crisis, the increase to 0.5% being in line with market expectations. UK CPI exceeded 3% in November but fell back to 2.4% in June 2018 as the effect of the post-referendum sterling devaluation passed through the economy.

The Fed continued to tighten monetary policy over the year to 30 June 2018, by raising interest rates three times, and ended the period with the rate set at 2.0%. Due to the modest pace of the rate hikes and the Fed's communication with the market, the majority of the impact of each raise was priced into markets and immediate reaction muted. During the third quarter of 2017, the Fed also announced plans to begin reducing its balance sheet. Jerome Powell replaced Janet Yellen as Chair of the Federal Reserve on 5 February 2018 and conducted his first meeting in March.

Market performance

Against this backdrop, market returns from traditional asset classes were largely positive in absolute terms over the year to 30 June 2018, with bonds producing modest positive returns.

www.barnett-waddingham.co.uk

The Investment Report (Cont)

Equities

Overall, global equities performed strongly over the year to 30 June 2018, generating 11.2% in local currency terms. Returns were positive across all geographical regions, but there was a significant differential of 10.2% between the best (North America: 14.4%) and worst (Europe: 4.2%) performing regions (in local currency terms).

The Scheme is exposed to equities through its investments with L&G, Ruffer, and Barings.

Bonds

The UK yield curve flattened with shorter term yields rising and longer term yields falling over the year. The net impact was a positive return (1.9%) for UK fixed interest gilts (all stocks). Inflation expectations fell marginally over the year, although the fall in yields meant that UK index-linked gilts (all stocks) also delivered a positive return (1.8%) over the year. UK corporate bond spreads (all stocks) widened by around 0.2% over the year.

The Scheme is exposed to bonds through its investments with Ruffer, Barings, Henderson, and Insight.

Property

The IPD UK All Property Index rose 10.7% over the year to 30 June 2018.

The Scheme is exposed to property through its investment in Standard Life.

Independent Auditor's Report to the Trustees of the Students' Union Superannuation Scheme

Opinion

We have audited the financial statements of Students' Union Superannuation Scheme (the 'Scheme') for the year ended 30 June 2018 which comprise the fund account, the statement of net assets and notes to the financial statements, including a summary of significant accounting policies. The financial reporting framework that has been applied in their preparation is applicable law and United Kingdom Accounting Standards, including Financial Reporting Standard 102 'The Financial Reporting Standard applicable in the UK and Republic of Ireland' (United Kingdom Generally Accepted Accounting Practice).

In our opinion, the financial statements:

- show a true and fair view of the financial transactions of the Scheme during the year ended 30 June 2018, and of the amount and disposition at that date of its assets and liabilities, other than liabilities to pay pensions and benefits after the end of the year;
- have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice; and
- contain the information specified in Regulations 3 and 3A of the Occupational Pension Schemes (Requirement to obtain Audited Accounts and a Statement from the Auditor) Regulations 1996, made under the Pensions Act 1995.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) (ISAs (UK)) and applicable law. Our responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the financial statements section of our report. We are independent of the Scheme in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, including the FRC's Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Who we are reporting to

This report is made solely to the Scheme's Trustees, as a body, in accordance with the Pensions Act 1995 and Regulations made thereunder. Our audit work has been undertaken so that we might state to the Scheme's Trustees those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Scheme's Trustees as a body, for our audit work, for this report, or for the opinions we have formed.

Conclusions relating to going concern

We have nothing to report in respect of the following matters in relation to which the ISAs (UK) require us to report to you where:

- the Trustees' use of the going concern basis of accounting in the preparation of the financial statements is not appropriate; or
- the Trustees have not disclosed in the financial statements any identified material uncertainties that may cast significant doubt about the Scheme's ability to continue to adopt the going concern basis of accounting for a period of at least twelve months from the date when the financial statements are authorised for issue.

Independent Auditor's Report to the Trustees of the Students' Union Superannuation Scheme (Cont)

Other information

The trustees are responsible for the other information. The other information comprises the information included in the annual report, other than the financial statements and our auditor's report thereon. Our opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in our report, we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether there is a material misstatement in the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

We have nothing to report in this regard.

Responsibilities of Trustees for the financial statements

As explained more fully in the Trustees' Responsibilities Statement set out on page 7, the Scheme's Trustees are responsible for the preparation of financial statements which show a true and fair view, and for such internal control as the trustees determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Trustees are responsible for assessing the Scheme's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the trustees either either intend to wind up the Scheme or have no realistic alternative but to do so.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

A further description of our responsibilities for the audit of the financial statements is located on the Financial Reporting Council's website at: www.frc.org.uk/auditorsresponsibilities. This description forms part of our auditor's report.

Summary of contributions payable in the year

During the year, the contributions payable to the Scheme by the employer under the Schedule of Contributions were as follows:

	£	
Employer normal	36,432	
Employer deficit funding contributions	7,470,200	
PPF Levy	363,868	
Contributions payable under the Schedule of Contributions	7,870,500	
Signed on behalf of the Trustees:		
	Trustee	
Date:		

Independent Auditor's Statement about Contributions to the Trustees of the Students' Union Superannuation Scheme

We have examined the summary of contributions to the Students' Union Superannuation Scheme (the 'scheme') for the scheme year ended 30 June 2018 which is set out on page 17.

In our opinion, contributions for the scheme for the year ended 30 June 2018 as reported in the summary of contributions and payable under the Schedule of Contributions have in all material respects been paid at least in accordance with the Schedule of Contributions certified by the Scheme Actuary on 28 June 2017.

Who we are reporting to

This statement is made solely to the Scheme's Trustees, as a body, in accordance with the Pensions Act 1995 and Regulations made thereunder. Our work has been undertaken so that we might state to the Scheme's Trustees those matters we are required to state to them in an auditor's statement about contributions and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Scheme's Trustees as a body, for our work, for this statement, or for the opinions we have formed.

Scope of work on statement about contributions

Our examination involves obtaining evidence sufficient to give reasonable assurance that contributions reported in the summary of contributions have in all material respects been paid at least in accordance with the Schedule of Contributions. This includes an examination, on a test basis, of evidence relevant to the amounts of contributions payable to the Scheme and the timing of those payments under the schedule of contributions.

Respective responsibilities of Trustees and the auditor

As explained more fully in the Statement of Trustees' Responsibilities set out on page 7, the Scheme's Trustees are responsible for preparing, and from time to time reviewing and if necessary revising, a Schedule of Contributions and for monitoring whether contributions are made to the Scheme by the employer in accordance with the Schedule of Contributions.

It is our responsibility to provide a statement about contributions paid under the Schedule of Contributions and to report our opinion to you.

The financial statements summarise the transactions of the Scheme and deal with the net assets at the disposal of the Trustees. They do not take account of obligations to pay pensions and benefits which fall due after the end of the Scheme year. The actuarial position of the Scheme is dealt with in the Report on Actuarial Liabilities on pages 8 to 9 of the Annual Report and these financial statements should be read in conjunction with this report.

The notes on pages 21 to 30 form part of these financial statements.

These financial statements were approved by the Trustees on

Signed on behalf of the Trustees:	
Trustee	Trustee

www.barnett-waddingham.co.uk

Date:

Details of general information for the Scheme are available in the Trustees Report.

1. Basis of preparation

The individual financial statements have been prepared in accordance with the Occupational Pension Schemes (Requirement to obtain Audited Accounts and a Statement from the Auditor) Regulations 1996, Financial Reporting Standard 102 – The Financial Reporting Standard applicable in the UK and Republic of Ireland (September 2015) issued by the Financial Reporting Council and the guidance set out in the Statement of Recommended Practice (2015).

2. Accounting policies

The principal accounting policies of the Scheme which are applied consistently are as follows:

Contributions

- Employer normal contributions that are expressed as a rate of salary are accounted for on the same basis as the employees' contributions, in accordance with the Schedule of Contributions in force during the year.
- Employer deficit funding contributions are accounted for on the due dates on which they are payable under the Schedule of Contributions or on receipt if earlier with the agreement of the Employer and Trustees.
- Employer additional contributions are accounted for in accordance with the agreement under which they are payable.

Payments to members

- Pensions in payment are accounted for in the period to which they relate.
- Benefits are accounted for in the period in which the member notifies the Trustees of his decision on the type or amount of benefit to be taken, or if there is no member choice, on the date of retiring or leaving.
- Individual transfers out of the Scheme are accounted for when member liability is discharged which is normally when the transfer amount is paid.

Expenses

- Expenses are accounted for on an accruals basis.
- Investment management expenses are accounted for on an accruals basis. Transaction costs are included in the cost of purchases and sale proceeds.

Investment income

- Income from bonds is accounted for on an accruals basis and includes interest bought and sold on investment purchases and sales.
- Dividends from quoted securities are accounted for when the security is declared ex-dividend.
- Income from pooled investment vehicles is accounted for when declared by the fund manager.
- Income from cash and short term deposits is accounted for on an accruals basis.
- Investment income arising from the underlying investments of the pooled investment vehicles is reinvested within the pooled investment vehicles and reflected in the unit price. Thus, it is reported within "Change in market value".
- Receipts from annuity policies are accounted for as investment income on an accruals basis.

Investments

- The change in market value of investments during the year comprises all increases and decreases in the market value of investments held at any time during the year, including profits and losses realised on sales of investments during the year.
- Unitised pooled investment vehicles have been valued at the latest available bid price or single price provided by the pooled investment manager.
- Quoted securities in active markets are usually valued at the current bid prices as at 30 June 2018, or at the valuation date nearest to the year-end.
- Accrued interest is excluded from the market value of bonds and is included in investment income receivable.
- With profit insurance & AVC policies are reported at the policy value provided by the insurance company based on the cumulative reversionary bonuses declared and the current terminal bonus.
- Annuities have been valued by the Scheme Actuary at the amount of the related obligation, determined using the most recent Scheme Funding valuation assumptions updated for market conditions at the reporting date.

- Over the counter (OTC) derivatives are valued using the following valuation techniques:
 - i. Forward foreign exchange (Forward FX) the gain or loss that would arise from closing out the contract at the reporting date by entering into an equal and opposite contract at that date.

Currency

The Scheme's functional and presentational currency is pounds sterling. Monetary items denominated in foreign currency are translated into sterling using the closing exchange rates at the Scheme year-end. Foreign currency transactions are recorded in sterling at the spot exchange rate at the date of the transaction.

3. Contributions

	2018	2017
	£	£
Employer contributions		
Normal	36,432	2,093
Deficit funding	7,470,200	2,755,860
PPF Levy	363,868	317,284
	7,870,500	3,075,237

Deficit funding contributions are being paid by the employers for a period of 16 years from 28 June 2017 in accordance with recommendations from the Scheme Actuary in order to improve the Scheme's funding position.

The Scheme reopened to future accrual to permit ten employers to join as incorporated body and for their former unincorporated entity to leave without triggering a section 75 debt. During the year the employers had five members accruing nominal benefits for the purposes of this exercise and for which the employer paid normal contributions. The PPF Levy contribution is higher than the Levy paid (see note 7) as the contribution includes an allowance for costs relating to the Levy due for 2017/18.

4. Other income

	2018	2017
	£	£
Professional fees recharged to employers	-	2,280

The Scheme bears all the costs of administration except for certain professional fees recharged to Employers as detailed in note 4.

8. Investment income

	2018	2017	
	£	£	
Dividends from equities	142,902	185,726	
Income from bonds	43,360	42,602	
Income from pooled investment vehicles	44,697	3,683,761	
Interest on cash deposits	2,785	572	
Annuity income	345,000	345,000	
	578,744	4,257,661	

9. Reconciliation of investments

	Value at 30 June 2017 £	Purchases at cost and derivative payments £	Sales proceeds and derivative receipts £	Change in market value £	Value at 30 June 2018 £
Equities	5,135,836	4,120,195	(4,257,992)	162,736	5,160,775
Bonds	6,046,165	5,111,882	(5,688,946)	48,154	5,517,255
Pooled investment vehicles	95,816,912	22,962,713	(22,622,431)	3,646,007	99,803,201
Insurance policies	5,456,132	-	-	(211,956)	5,244,176
Derivatives	(5,392)	176,689	(245,482)	47,623	(26,562)
AVC investments	538,262	-	(157,532)	-	380,730
	112,987,915	32,371,479	(32,972,383)	3,692,564	116,079,575
Cash deposits	1,417,944				2,082,647
Other investment balances	28,223				28,747
	114,434,082				118,190,969

Transaction costs are included in the cost of purchases and deducted from sale proceeds. Direct transaction costs include costs charged to the Scheme such as fees, commissions and stamp duty.

Transaction costs analysed by main asset class and type of cost are as follows:

				2018
	Fees	Commission	Taxes	Total
	£	£	£	£
Equities	305	6,821	5,653	12,779
Pooled investment vehicles	5,547	67	-	5,614
Equities	5,852	6,888	5,653	18,393
				2017
	Fees	Commission	Taxes	Total
	£	£	£	£
Equities	3	955	1,123	2.081

In addition to the transaction costs disclosed above, indirect costs are incurred through the bid-offer spread on investments within pooled investment vehicles and charges made within those vehicles. The amount of indirect costs is not separately provided to the Scheme.

10. Investment management expenses

	2018	2017
	£	£
Administration, management and custody	192,416	224,043
Investment consultancy fee	62,258	75,318
	254,674	299,361

11. Taxation

The Scheme is a registered pension scheme under Chapter 2 of Part 4 of the Finance Act 2004 and is therefore exempt from income tax and capital gains tax. The tax charge in the Fund Account represents irrecoverable withholding tax arising on investment income.

www.barnett-waddingham.co.uk

12. Pooled investment vehicles

The Scheme's investments in pooled investment vehicles at the year-end comprised:

	2018	2017
	£	£
Equities	24,609,816	28,667,442
Bonds	22,252,050	28,744,721
Commodities	662,217	294,287
Cash	156,311	295,471
Derivatives	222,347	914,219
LDI	21,300,087	13,644,846
Multi-asset	16,396,281	15,847,603
Property	7,955,138	7,408,323
Hedge	6,248,954	
	99,803,201	95,816,912

13. Derivatives

OBJECTIVES AND POLICIES

The Trustees have authorised the use of derivatives by their investment managers as part of their investment strategy for the Scheme as follows:

Forward FX – in order to maintain appropriate diversification of investments within the portfolio and take advantage of overseas investment returns, a proportion of the underlying investment portfolio is invested overseas. To balance the risk of investing in foreign currencies whilst having an obligation to settle benefits in GBP (sterling), a currency hedging programme, using forward FX contracts, has been put in place to reduce the currency exposure of these overseas investments to the targeted level.

At the year end the Scheme had the following derivatives:

	2018		2017	
	Asset	Liability	Asset	Liability
	£	£	£	£
Forward FX contracts	-	(26,562)	29,990	(35,382)
	-	(26,562)	29,990	(35,382)

A summary of the Scheme's outstanding derivative contracts at the year-end aggregated by key characteristics is set out below:

Forward FX contracts

Contract	Settlement date	Currency bought	Currency sold	Asset value £	Liability Value £
Forward FX	3 months	EUR	GBP	-	(393)
Forward FX	3 months	JPY	GBP	-	(14,688)
Forward FX	3 months	USD	GBP	-	(11,481)
Total 2018				-	(26,562)
Total 2017				29,990	(35,382)

14. AVC investments

The Trustees hold assets invested separately from the main investments to secure additional benefits on a money purchase basis for those members electing to pay Additional Voluntary Contributions. Members participating in this arrangement each receive an annual statement made up to the Scheme year-end confirming the amounts held to their account and the movements in the year. The aggregate amounts of AVC investments are as follows:

	2018	2017
	£	£
Friends Provident (With-profits)	201,448	277,804
Friends Provident (Unit-linked)	179,282	260,458
	380,730	538,262

15. **Insurance policies**

The Scheme held insurance policies at the year-end as follows:

	2018 £	2017 £
Annuities with Friends Life	5,244,176	5,456,132
	5,244,176	5,456,132

Fair value determination

The fair value of financial instruments has been estimated using the following fair value determination:

The unadjusted quoted price in an active market for identical assets or liabilities that the entity Level 1:

can access at the measurement date.

Level 2: Inputs other than quoted prices included within Level 1 that are observable (i.e. developed using market data) for the asset or liability, either directly or indirectly.

Level 3: Inputs are unobservable (i.e. for which market data is unavailable) for the asset or liability.

The Scheme's investment assets and liabilities have been fair valued using the above determination levels as follows:

	As at 30 June 2018			
	Level	Level	Level	
	1	2	3	Total
	£	£	£	£
Equities	5,160,775	-	-	5,160,775

17. Investment risk disclosures

FRS102 requires the disclosure of information in relation to certain investment risks as follows:

Credit risk – one party to a financial instrument will cause a financial loss for the other party by failing to discharge an obligation.

Market risk – comprises the following three types of risk:

- 1. Interest rate risk: The risk that the fair value or future cashflows of a financial asset will fluctuate because of changes in market interest rates
- 2. Currency risk: The risk that the fair value or future cashflows of a financial asset will fluctuate because of changes in foreign exchange rates
- 3. Other price risk: The risk that the fair value or future cashflows of a financial asset will fluctuate because of changes in market prices (other than those due to interest rates and currency).

The Trustees determine their investment strategy after taking advice from a professional investment adviser. The Scheme has exposure to these risks because of the investments it makes in following the investment strategy set out below. The Trustees manage investment risks, including credit risk and market risk, within agreed risk limits which are set taking into account the Scheme's strategic investment objectives. These investment objectives and risk limits are implemented through the investment management agreements in place with the Scheme's investment managers and monitored by the Trustees by regular reviews of the investment portfolio.

Further information on the Trustees' approach to risk management, credit and market risk is set out below. This does not include AVC investments or legacy insurance policies as these are not considered significant in relation to the overall investments of the Scheme.

The following table summarises the extent to which various classes of investments are affected by financial risks:

Asset Type	Credit risk	currency risk	interest rate risk	other price risk	2018 £	2017 £
L&G Equities	1	2	1	3	22,954,009	26,718,203
Standard Life UK Property	1	1	2	3	7,955,138	7,408,323
Ruffer Absolute Return	2	2	2	3	16,168,959	16,241,503
Barings DAAF	2	2	2	3	15,518,175	15,105,224
Henderson MAC	3	2	3	1	11,198,659	10,964,428
Insight BP400	3	2	3	1	11,075,563	17,780,293
Insight LDI	2	1	3	1	21,300,087	13,644,845
Partners Fund	2	2	2	2	6,248,954	n/a
Liquid Assets - Cash	3	2	1	1	189,154	604,817

In the table above, a risk rating '1' is deemed none/hardly any risk, '2' is partial and '3' is significant

CONFIDENTIAL 27

www.barnett-waddingham.co.uk

17. Investment risk disclosures (Cont)

Market risk: Interest rates

The Scheme is subject to interest rate risk because some of the Scheme's investments are held in bonds, leveraged gilt repos, interest rate swaps and cash through pooled investment vehicles. Specifically, the Scheme has exposure to interest rates through it's investments with Insight and Henderson.

Generally speaking, if interest rates fall, the value of the Scheme's bond investments will rise to help offset a portion of the increase in actuarial liabilities arising from a fall in the discount rate. Similarly, if interest rates rise, the bond investments are more likely to fall in value, as will the actuarial liabilities because of an increase in the discount rate. As at 30 June, through their investments in bonds and LDI, the Scheme has hedged approximately 32% of the impact of interest rate movements on the liabilities. That is, if interest rates move, the LDI portfolio will experience approximately 32% of the movement of the liabilities.

Market risk: Currency

The Scheme is exposed to currency risk because some of its investments are held in overseas markets. These include the overseas equity portfolio with LGIM, Barings and Ruffer in their diversified growth fund and target return fund respectively, the multi-asset credit manager Henderson, Partners Group and Insight may also gain exposure to currency movements though their holdings of overseas assets.

The Scheme's liabilities are denominated in sterling and currency hedging is employed with overseas equities to manage the impact of exchange rate fluctuations on the Scheme's investments. Specifically, the Trustees took steps to hedge 75% of the non-sterling exposure in the equity mandate managed by L&G back into Sterling.

The Scheme's other managers, Ruffer, Barings, Henderson, Partners Group and Insight take active decisions as to whether or not they hedge currency exposure back into Sterling.

Market risk: Other price

Other price risk arises principally in relation to the Scheme's return seeking portfolio which includes directly held equities, private equity, equities held in pooled vehicles, property and diversified growth funds.

The Scheme manages this exposure by investing in funds that invests in a diverse portfolio of instruments across various markets. According to the Scheme's Statement of Investment Principles (SIP), each investment manager is expected to manage broadly diversified portfolios and to spread assets across a number of individual shares and securities. In addition, the asset allocation is detailed in the Appendix of the SIP document and is monitored on a regular basis by the Trustees.

Credit risk

The Scheme is subject to credit risk because the Scheme directly invests in bonds, derivatives, has cash balances, enters into repurchase agreements, private debt and holds units in pooled investment vehicles. The Scheme has indirect exposure to credit risks from the underlying investments held by the pooled investment vehicles.

The credit risk arising on bonds is mitigated via Henderson and Insight's active management of the bond funds held by the Scheme. There may be additional exposure through assets held by Barings and Ruffer in their diversified growth fund and absolute return portfolio respectively.

The exposure to credit risk through private debt is managed by the Partners Group as it forms a proportion of a broadly diversified portfolio of alternative investments.

The instruments used in the pooled LDI funds held with Insight are not necessarily guaranteed by a regulated exchange, so there is the risk of a counterparty defaulting on its payment. The risk is reduced through collateral arrangements. It must be emphasised that although the instruments used by Insight in the pooled LDI funds carry various risks, the aim of these investments is to hedge against the changing actuarial value placed on the liabilities of the Scheme.

Credit risk arising on other derivative contracts is mitigated by investment mandates requiring all counterparties to be at least investment grade credit rated.

Cash is held within financial institutions which are at least investment grade rated.

17. Investment risk disclosures (Cont)

Pooled investment arrangements used by the Scheme comprises of authorised unit trusts. Direct credit risk arising from pooled investment vehicles is mitigated by the underlying assets of the pooled arrangements being ring-fenced from the pooled manager, the regulatory environments in which the pooled managers operate and the ongoing due diligence of the pooled manager.

Indirect credit risk arises in relation to the underlying investments of pooled investment vehicles. This risk is mitigated as set out above.

The Trustees monitor the performance of each of the Scheme's investment managers on a regular basis in addition to having meetings with each manager from time to time as necessary. The Trustees have a written agreement with each investment manager, which contains a number of restrictions on how each investment manager may operate.

18. Concentration of investments

The following investments each account for more than 5% of the Scheme's net assets at the year-end:

	2018		2017	
	£	%	£	%
Insight Bonds Plus 400 Fund	11,053,391	9.4	17,780,293	15.5
Barings Alpha Funds Dynamic Assets	15,518,175	13.1	15,105,224	13.2
Henderson Multi Asset Credit Fund	11,198,659	9.5	10,964,428	9.6
Insight Longer Real Fund	12,565,085	10.6	7,604,004	6.6
Standard Life Property Fund	7,955,138	6.7	7,408,323	6.5
L&G UK Equity Index Fund	5,954,825	5.0	6,631,375	5.8
Partners Group Fund	6,248,954	5.3	-	-

19. Current assets

	2018	2017
	£	£
Contributions due from employer in respect of:		
Employers	447,022	232,422
Prepayments	262,121	244,588
Cash balances	69,282	162,376
	778,425	639,386

Contributions due to the Scheme at the year-end have been paid subsequent to the year-end in accordance with the Schedule of Contributions.

20. Current liabilities

	2018	2017
	£	£
Unpaid benefits Accrued expenses	(900,001) (178,537)	(623,227) (249,232)
Accided expenses	(1,078,538)	(872,459)

21. Related party transactions

Fees and expenses paid directly to the Trustees by the Scheme for their services are disclosed in Note 7 to the accounts.

All of the transactions were made in accordance with the Scheme Rules.

22. Employer-related investments

There were no direct employer-related investments at the year-end.

Contributions are normally received by the Trustees in the subsequent month to that in which they are due. Under the accruals basis of accounting, these contributions are therefore shown as outstanding. However, as the contributions were received in line with the Schedule of Contributions after the year end, they do not become employer-related investments.

23. Contingent liabilities

As described on page 4 there is a contingent liability of approximately £1.9 million in relation to pensions.

Members who were in pensionable service on 1 October 1988 were sent an announcement informing them of the reduction in pension increases to 3% from that date. There is a possible additional actuarial funding liability of £12.2 million in respect of those members for their pensionable service from 1 October 1988 to 31 December 1993.

New joiners from 1 October 1988 received an explanatory booklet informing them that the applicable increase to pensions in payment is 3% fixed. The defective amendment means that there is a possible additional funding liability of £33.1 million in respect of those members for their pensionable service from the date of joining to 31 December 1993. Of the £33.1 million actuarial funding liability, the amount potentially underpaid to date is £1.7 million with interest on the back payments of £0.2 million.

Due to the uncertainty of the outcome of this pension increase matter, it is not possible to reliably estimate the quantum of the final agreed liability and therefore this has not been accounted for.

Certificate of Adequacy of Contributions

Certification of the schedule of contributions

Students' Union Superannuation Scheme

Adequacy of rates of contributions

I certify that, in my opinion, the rates of contributions shown in this schedule of contributions are such that the statutory funding objective could have been expected, on 30 June 2016, to be met by the end of the period specified in the recovery plan dated 28 June 2017.

Adherence to statement of funding principles

I hereby certify that, in my opinion, this schedule of contributions is consistent with the Statement of Funding Principles dated 28 June 2017.

The certification of the adequacy of the rates of contributions for the purpose of securing that the statutory funding objective can be expected to be met is not a certification of their adequacy for the purpose of securing the scheme's liabilities by the purchase of annuities, if the scheme were to be wound up.

Schedule of Contributions

Students' Union Superannuation Scheme Schedule of contributions

Status

This schedule of contributions has been prepared by the Trustees of the Students' Union Superannuation Scheme ("the Scheme"), after obtaining the advice of the Scheme Actuary appointed by the Trustees.

Contributions to be paid by the participating unions from 28 Sune 2017 to 30 June 2033

In respect of the shortfall in funding as set out in the Recovery Plan dated Each participating employer will contribute an amount as set out in the attached Appendix 1.

The amounts commencing 1 October 2017 will be increased each subsequent 1 October by 5% or such greater amount as is agreed between the Trustees and the Principal Employer.

These contributions are payable monthly in arrears, within 19 days of the end of each month. A participating employer may, at their discretion, pay all or part of the contributions in advance.

The Trustees have given the participating employers the option of paying a single lump sum contribution instead of their monthly contributions from October 2017 to September 2020. These lump sum contributions are set out in Appendix 2. If a participating employer chooses to pay this lump sum (which they are under no obligation to do) then they will not pay any contributions set out in Appendix 1 for the period from 1 October 2017 to 30 September 2020. Contributions payable under Appendix 1 for periods outside these dates remain payable by participating employers taking up this offer. Participating employers taking up the offer must pay the lump sum contribution by 19 November 2017, and may at their discretion pay all or part of the lump sum contribution in advance.

In respect of expenses:

The amounts set out in the appendices include an allowance of £400,000 pa in respect of the ongoing administrative and operational expenses of running the Scheme.

In respect of the Pension Protection Fund levy: The amount of the PPF levy as shown in the levy invoice, plus associated expenses, will be payable in addition to the contributions set out in the appendices. Once the PPF levy has been paid by the Trustees, the amount due from each participating employer will be determined by the Trustees and notified to each participating employer for payment within 30 days.
