## Students' Union Superannuation Scheme ('Scheme')

30 June 2023 Implementation Statement

October 2023

#### Schroders' Solutions Disclaimer:

The Implementation Statement is a regulatory requirement under the 2018 changes to the Occupational Pension Schemes (Investment) Regulations 2005. It is important that the Trustees of the Scheme understand and consider financially material Environmental, Social and Governance ("ESG") factors and consider their own stewardship obligations. A failure to do this puts the Trustees at risk of breaching their legal duties.

This is a Trustee document, and the Trustees must review the Implementation Statement draft provided by their investment adviser and confirm that they have considered the content prepared and reviewed any associated documentation, such as voting policies.

### 1. Introduction

The Trustees are required to make publicly available online a statement ("the Implementation Statement") covering the Students' Union Superannuation Scheme (the 'Scheme') in relation to the Scheme's Statement of Investment Principles (the "SIP").

The SIP was not amended during the year ending 30 June 2023, and the changes made were predominantly for the change of Investment Managers and Investment Adviser. In addition, the SIP was updated to reflect the change in overall investment target return.

This SIP came into force from 2 August 2023.

A copy of the current SIP signed and dated 2 August 2023 can be found here <u>weareigg.com/wp-</u> <u>content/uploads/2023/08/2023-SUSS-Statement-of-Investment-Principles.pdf</u>

This Implementation Statement covers the Scheme year from 1 July 2022 to 30 June 2023 (the "Scheme Year"). It sets out:

- How the Trustees' policies on exercising voting rights and engagement have been followed over the Scheme Year; and
- The voting by or on behalf of the Trustees during the Scheme Year, including the most significant votes cast and any use of a proxy voter during the Scheme Year.

A new set of guidance ("the Guidance") from the Department for Work and Pensions ("DWP") has been issued with a series of statutory & non-statutory guidance. They aim to encourage the Trustees of the Scheme to properly exercise their stewardship policy including both voting and engagement which is documented in the Scheme's SIP. This Implementation Statement has been prepared to provide the details on how the Trustees of the Scheme, with the help of the Scheme's Fiduciary Manager, have complied with the new statutory guidance set by DWP.

During the Scheme Year, the Trustees appointed a Fiduciary Manager, Schroders, and the Scheme's assets were transitioned from their Legacy Investment Managers. The Fiduciary Manager has been managing the Scheme's assets since 31 May 2023; for the purposes of the Implementation Statement, the Scheme's legacy holdings that were held for eleven months of the Scheme Year have been included. The majority of the Implementation Statement reflects the policies now in force under the Fiduciary Management approach, but as the assets had not fully transitioned until the end of the Scheme Year, the voting and engagement statistics are based on the legacy assets.

A copy of this Implementation Statement is available on the following website: <u>Implementation Statement</u> (schemedocs.com)

## 2. How the Trustees' policies on exercising voting rights and engagements have been followed over the Scheme Year

The Trustees use the Fiduciary Management service of **Schroders IS Limited** as their Investment Manager and Adviser (it is referred to as the "**Fiduciary Manager**" in the Implementation Statement). The Fiduciary Manager has been managing the Scheme's assets since 31 May 2023; for the purposes of the Implementation Statement, the Scheme's legacy holdings that were held for eleven months of the Scheme Year have been included. Schroders Group, a global asset manager, has a long history of engagement and active ownership, dating back to 1998 when it appointed its first governance resource, and has recorded and monitored ESG engagements since then. Further credentials include:

- Signatory to the UK Stewardship code
- A+ rating for UN Principles for Responsible Investment
- A- rating for Carbon Disclosure Project
- Advanced ESG recognition from Morningstar
- Engagement Blueprint awarded ESG Engagement Initiative of the Year at Environmental Finance's Sustainable Investment Awards 2022
- Best Investor Engagement recognition from IR Society Best Practice Award for 2021

The Fiduciary Manager can appoint other investment managers to manage part of the Scheme's assets (these are referred to as "**Underlying Investment Managers**"). The Scheme invests in some assets with voting rights attached (e.g. equities) and with engagement possible in relation to most asset classes. Whilst the Trustees have delegated responsibility to the Fiduciary Manager and Underlying Managers for voting and engaging on its behalf, the Trustees regularly review the approach and stewardship policies of the Fiduciary Manager to ensure they are aligned with the Trustees' beliefs and objectives.

A copy of the Scheme's SIP has been provided to the Fiduciary Manager, and the Fiduciary Manager is expected to follow the Trustees' investment policies when providing Fiduciary Management services. However, given that the investments with the Underlying Investment Managers are generally made via pooled funds (where the Scheme's investments are pooled with those of other investors), the Fiduciary Manager does not have direct control over voting or engaging with the companies that issue the underlying securities. This process lies with the Underlying Investment Manager, who may have different engagement priorities than the Trustees. Therefore, the Trustees require the Fiduciary Manager to integrate stewardship activities such as voting and engagement, and Environmental, Social and Governance (ESG) factors including climate change, into the selection or monitoring of Underlying Investment Managers. The Trustees believe it is appropriate to delegate the decision of appointing and monitoring Underlying Investment Managers to the Fiduciary Manager, who will be able to influence the Underlying Investment Manager's voting and engagement policies. Consequently, the Trustees can largely exercise their stewardship policy as set out in the Scheme's SIP.

During the Scheme Year, the Trustees have received training on the latest DWP Guidance. To support the Trustees in meeting the new requirements, the Trustees also received training on Schroders' Engagement Blueprint, which sets out the six engagement themes the Scheme's Fiduciary Manager believes to be most financially material. These are the themes the Fiduciary Manager will align the majority of its own engagement of underlying managers with. To agree on which of these themes the Trustees prioritise in its own stewardship activities, the Trustees completed a survey selecting three engagement themes it will use for engagement and monitoring of the Fiduciary Manager's activities. The Trustees of the Scheme have determined their stewardship priorities over 2023 as Climate Change, Natural Capital & Biodiversity, and Human Rights.

The Trustees believe these themes are issues material to the long-term value of the investments. These issues also reflect expectations and trends across a range of stakeholders, and by strengthening relationships with

these stakeholders, business models become more sustainable, which ultimately should enhance the value added to the Scheme's investment and hence benefit the Scheme's members and beneficiaries. Therefore the Trustees believe that companies that address those issues, when they are material and relevant, will drive improved financial performance for the Scheme.

On behalf of the Trustees, the Fiduciary Manager carries out regular investment and operational due diligence on the Underlying Investment Managers to monitor voting and engagement policies concerning the Scheme's investments. Additionally, with the help of the Fiduciary Manager, the Trustees monitor the performance of the Underlying Investment Managers against the agreed performance objectives at Trustee meetings held during the Scheme Year.

In addition, the Trustees also received other training on topics such as Climate Risk, ESG Regulation and how their Fiduciary Manager integrates ESG into its investment processes.

Given the activities carried out during the Scheme Year and by preparing this Implementation Statement, the Trustees believe that they have acted in accordance with the DWP Guidance over the Scheme Year.

## 3. Voting and Engagement Summary

This section of the Implementation Statement focuses on the Scheme's holdings with the Legacy Investment Managers, that were held for the majority of the Scheme Year, 1 July 2022 to 31 May 2023. The Scheme's investment managers during this period were as follows:

- Legal and General Investment Management ("LGIM");
- Baillie Gifford Asset Management ("Baillie Gifford");
- Schroder Investment Management ("Schroders");
- Janus Henderson Global Investors ("Janus Henderson");
- Partners Group (Guernsey) Limited ("Partners"); and
- Insight Investment Management ("Insight").

During the period, the Scheme invested entirely in pooled funds, and, as such, delegated responsibility for carrying out voting and engagement activities to the Scheme's Legacy Investment Managers. The voting rights and engagement regarding the Scheme's investments relate to underlying securities within pooled funds. At a general meeting of a company, the Legacy Investment Managers exercise voting rights and engage with the company issuing the security in line with their policies. The Trustees receive and review voting information and engagement policies from the Scheme's Legacy Investment Managers (summarised in this document), which were reviewed to ensure they aligned with the Trustees' policies stated in the Statement of Investment Principles.

#### Voting by the Underlying Investment Managers on securities held on behalf of the Trustees

The majority of the voting data collated for the Scheme is given over the year to 31 March 2023 as the most reflective period that the Legacy Investment Managers were held. The voting data provided by all managers is specific to the pooled version of the funds in which the Scheme invests.

#### **Most Significant Votes**

The Trustees have delegated to the Legacy Investment Managers to define what a "significant vote" is. Data on significant votes was requested from the Legacy Investment Managers of all the funds in which the Scheme invests that have invested in equities over the nine months to 31 March 2023. A selection of key voting action the managers have provided is below.

In<br>particular, they noted the<br>timing of the proposed<br>meetings as a matter of<br>grave concern. The decision<br>to hold the company's<br>meeting before the<br>shareholder requisitioned<br>meeting appeared to be a<br>direct attempt to<br>undermine due process. | Climate change: A vote<br>against is applied, though<br>not without reservations.<br>We acknowledge the<br>substantial progress made<br>by the company in<br>strengthening its<br>operational emissions<br>reduction targets by 2030,<br>as well as the additional<br>clarity around the level of<br>investments in low carbon<br>products, demonstrating a<br>strong commitment<br>towards a low carbon<br>pathway. However, we<br>remain concerned of the<br>disclosed plans for oil and<br>gas production, and would<br>benefit from further<br>disclosure of targets<br>associated with the<br>upstream and downstream<br>businesses. |

|---|--|--|---|
| On what criteria was the<br>vote considered "most<br>significant" | Thematic - Diversity: LGIM<br>views gender diversity as a<br>financially material issue<br>for their clients. This vote<br>is deemed significant due<br>to the escalation and<br>expansion of their diversity<br>vote to all-male Executive<br>Committees. | Pre-Declaration and<br>Engagement: LGIM<br>considers this vote to be<br>significant as it is in<br>application of an escalation<br>of their engagement<br>activity. The overall<br>engagement demonstrates<br>how LGIM's Investment<br>Stewardship, Investment<br>and Climate Solutions<br>teams work together in<br>pushing for a better<br>financial and<br>environmental outcome for<br>stakeholders, and through<br>the vote outcomes it<br>demonstrates the power of<br>combined shareholder<br>action. | LGIM considers this vote<br>significant as it is an<br>escalation of our climate-<br>related engagement<br>activity and our public call<br>for high quality and<br>credible transition plans to<br>be subject to a shareholder<br>vote. |
